Art Unit: 2665

1. Claims 28-37, 68-73 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

Claims 28 and 29 are objected for failing to further limit the subject matter of a previous claim since each claim depends upon itself. Claims 30-37 are objected for depending on claims 28 and 29.

Claims 68 and 70 are objected for failing to further limit the subject matter of a previous claim since each method claim depends upon claim 61, which is an apparatus claim. Claims 69, 71-73 are objected for depending on claims 68 and 70.

Accordingly, the claims 28-37, 68-73 have not been further treated on the merits.

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-27, 38-63, drawn to a system and method for analyzing compatibility of access terminals, classified in class 370, subclass 465.
- II. Claims 64-67, drawn to a method of scheduling access terminals, classified in class 370, subclass 395.4.

The inventions are distinct, each from the other because of the following reasons:

3. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention II has separate utility such as scheduling device. See MPEP § 806.05(d).

Art Unit: 2665

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alpus H. Hsu whose telephone number is (571)272-3146. The examiner can normally be reached on M-F (5:30-3:00) First Friday Off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Huy D. Vu can be reached on (571)272-3155. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
